## About us

Shenzhen Speed-up Logistics Intl's Co., Ltd. was originally founded on Feb 2006. With years of focusing on international project logistics, Speed-up has gained plenty of experience in handling over-dimensional or over-weight equipment. Due to our high-level operating skills and professional service, groups of multi-national corporations have established long-term cooperative

relationship with us. Speed-up is providing comprehensive logistics service for giant wind mill parks, hydropower stations, petrochemical projects, sea water desalinization projects, new motor press lines, etc.!

In 2011, Shenzhen Speed-up set up one more joint-venture company with Leeward Group as Shenzhen Leeward Int'l Logistics Co., Ltd. Leeward Group is headquartered in Spain with branches in Germany, USA, Mexico, Brazil, China and India specialized in overweight transportation, project logistics, vessel chartering and shipping agency.

Being expert in selecting and combining global logistics resources, Speed-up gains the core competency in its tailor-making transportation solutions for every single project! We warmly welcome friends from all over the world to cooperate with us!
